

# Ibrahim Ibrahim Braji

Computer scientist and engineer

## About Me

### Skills

Entry-level software engineer with a passion for developing innovative programs that expedite the efficiency and effectiveness of organizational success. Well-versed in technology and writing code to create systems that are reliable and user-friendly. A skilled software engineer who has the proven ability to motivate, educate, and manage a team of professionals to build software programs and effectively track changes. Confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, highlight its core competencies, and further its success.

- Strong communication skills
- Strong teamwork skills
- Quick learner
- Adaptability
- Attention to detail and ability to work with a high degree of accuracy

## E-Commerce website

Personal project • June 2023.

I built and designed an e-commerce website with HTML, CSS, and JavaScript.

It consists of 4 other web pages which include a home page, a product page, a cart page, and an account page.

## Portfolio Website

Personal project • Jul 2023.

I built and designed a UI/UX fully responsive portfolio website with the use of HTML, CSS, and JavaScript.
